Contents of Volume 50

Number 1, February 1990

Timothy J. Kehoe, David K. Levine, and Paul M. Romer. Determinacy of Equilibria in Dynamic Models with Finitely Many Consumers 1

Martin J. Osborne. Signaling, Forward Induction, and Stability in Finitely Repeated Games 22

Yorgos Y. Papageorgiou and David Pines. The Logical Foundations of Urban Economics Are Consistent 37

Soo Hong Chew and Larry G. Epstein. Nonexpected Utility Preferences in a Temporal Framework with an Application to Consumption–Savings Behaviour. 54

Walter Bossert. An Axiomatization of the Single-Series Ginis 82

Lawrence M. Ausubel. Partially-Revealing Rational Expectations Equilibrium in a Competitive Economy. 93

Vincent P. Crawford. Equilibrium without Independence. . . . 127

J. Esteban and T. Millán. Competitive Equilibria and the Core of Overlapping Generations Economies 155

Hiroshi Osano. Dynamic Labor Contracts under Asymmetric Information 175

Lars J. Olson. Multivariate Decision-Making under Risk Aversion 193

Notes, Comments, and Letters to the Editor

Michael Landsberger and Isaac Meilijson. Demand for Risky Financial Assets: A Portfolio Analysis 204

Hans Ehrbar. Mean–Variance Efficiency When Investors Are Not Required to Invest All Their Money. 214

Richard Dusansky. Monetary Taxation in a Monetary Exchange Economy 219

Announcement 234

Papers to Appear in Forthcoming Issues 235

Number 2, April 1990

Robert E. Lucas, Jr. Liquidity and Interest Rates 237

Stephen E. Spear, Sanjay Srivastava, and Michael Woodford. Indeterminacy of Stationary Equilibrium in Stochastic Overlapping Generations Models. 265

Dilip Abreu and Arunava Sen. Subgame Perfect Implementation: A Necessary and Almost Sufficient Condition 285
Eddie Dekel. Simultaneous Offers and the Inefficiency of Bargaining: A Two-Period Example 300
Jeffrey S. Banks. A Model of Electoral Competition with Incomplete Information 309
John H. Boyd III. Recursive Utility and the Ramsey Problem . . 326
Douglas H. Blair and Richard P. McLean. Subjective Evaluations of *n*-Person Games 346
Charalambos D. Aliprantis and Owen Burkinshaw. An Overlapping Generations Model Core Equivalence Theorem 362
In-Koo Cho and Joel Sobel. Strategic Stability and Uniqueness in Signaling Games. 381
Donald E. Campbell. Intergenerational Social Choice without the Pareto Principle 414
Robert F. Nau and Kevin F. McCardle. Coherent Behavior in Noncooperative Games 424

Notes, Comments, and Letters to the Editor

Daniel J. Seidmann. Effective Cheap Talk with Conflicting Interests 445
Donald E. Campbell and Mark Walker. Maximal Elements of Weakly Continuous Relations 459
